

What People are Saying about TMAA CLE Seminars

“TMAA provides the best source of continuing education in the state for attorneys who work for local governments. I can’t imagine practicing municipal law in Tennessee without attending TMAA seminars.”

Roger Horner, Brentwood City Attorney

“TMAA seminars are invaluable to me – because of both the seminar content and the opportunity to learn from other, frequently more experienced, Tennessee municipal attorneys.”

Barbara Lapedes, City Attorney of Millington, Piperton, and Rossville

“I have attended TMAA seminars since the organization was created. They are always well presented and on point with current municipal issues. I find these seminars are always helpful in my representation of municipal clients. I look forward to attending the two seminars each year and get a full year’s CLE that is specific to my practice.”

Ron Sharp, Gatlinburg City Attorney

“I think the utility seminar was excellent. Overall I have been impressed with the broad range of topics that TMAA has presented in all seminars the last several years.”

David Amonette, City Attorney of Portland and White House

“My involvement with the TMAA has been professionally satisfying and enjoyable. I attend similar seminars in other states, and I have found TMAA’s programs to be the most relevant and meaningful.”

Rick Whitehead, J.D., MTAS Management Consultant

“I have attended many TMAA seminars. Every time I attend I discover very helpful information directly related to issues I deal with daily of which I was not aware or about which I did not have the depth of knowledge I obtained at the seminar.”

Larry Cantrell, Fairview City Attorney

“Not only are the TMAA seminars an opportunity to make contacts with attorneys who have a wealth of knowledge regarding all aspects of municipal law, but the topics discussed at these seminars are always timely and relevant to the issues facing me as municipal attorney in Knoxville. This is the one seminar I try not to miss each year.”
